PHIL 2450: Introduction to Metaphysics (fictional course)
Paper 4: Personal Identity
Due: Friday of Week 11, 11:59 PM, submitted through the course website

Prompt
Is a person who loses all memories of their past still the same person? Defend a clear answer using at least one of the theories we studied: Locke's memory theory, the bodily continuity view, or Parfit's reductionist view.

Requirements
- Length: 1,500 to 2,000 words, not counting the bibliography.
- Your paper must state a thesis in the first paragraph.
- You must present and respond to at least one serious objection to your view.
- Cite at least two of the assigned course readings. Outside sources are optional.
- Use Chicago author-date citation style.
- Submit a one-paragraph outline to your TA by Monday of Week 10 for feedback.

Academic integrity
You may discuss ideas with classmates, but all writing must be your own.
